The janitress of the building says that she has been there for several years and that no person of that name is known to her, and he certainly was not living there in May, 1833, when Mrs. Urchittel was arrested.

"It may not have been either of the ward detectives, who visited Mrs. Urchittel first and demanded money of her," said Mr. Moss this omrning, "and, in fact, I am inclined to believe that it was not.

"They made the final arrest and it would not do for them to appear as the persecutive of the woman.

"It is frequently the custom," he continued, "for ward men to get some other person, usually some patrolman attached to the precinct, to do their dirty work for them, and in this case the man who so outrageously maltreated the woman may have been merely a tool.

"She says that he came to her house in police uniform, which would go to confirm this belief, for the ward men themselves seldom wore uniforms, but went about in citizen's clothes. However, it is hard to believe that neither of the ward men knew nothing about the case before they made the arrest.

meet the distinguished traveller.

This is the cruelest part of her misfortune, the loss of her three children, whom, she claims, she was supporting, and is still able to support by her own efforts. When she testified before the Lexow Committee she said that the policeman who first came to her and demanded money threatened if she did not pay it her children would be taken away from her, and she would be put in prison.

For this reason she made every effort to satisfy the demand, but after she had paid over all thot she could raise, she was arrested and locked up, and her children "put away" in the manner so well known to those who have ever had any dealings with the police courts, and the agents of the Gerry Society.

As has been already told, the children were committed in Essex Market Court, at the request of the Gerry agents, to the Hebrew Sheltering Arms Orphan Asylum, at One Hundred and Fiftheth street and Boulevard, and the mother, owing to her imperfect knowledge of English and the customs of the police courts, could find no trace of them whatever when she was released from custody.

"We have made no formal demand upon the Society for the Prevention of Cruelty to Children as yet to give up the children, but that will follow as a matter of course, now that her story of suffering is known, and we will use our influence to enable her to regain possession of them."

The fact has been repeatedly demonstrated that, when the Gerry Society once gets a child into its possession, and make the cluiches, of grim death, and refuse to give it up unless forced to do so by the pressure of public sentiment.

The law gives this institution the absolute custody and control of a child. Once it has been committed to its charge by a police magistrate, until it shall reach the age af twenty-one, and although even Justices of the Supreme Court have often deplored this state of affairs, the law as it stands makes the bischest judicial authority of the State powerless to act, or even to restore to its parents a child which may have been committed by a mistake or under some misunderstanding.

Supt. Jenkins, who manages this sort of business for the Gerry Society, was called upon by an "Evening World" reporter this morning, and asked if he had cread in the papers anything about the case of Mrs. Urchittel and her children, "Yes," he answered gruffly, "and I haven't anything to say to you about it. You can't get any information here."

Oppressors.

The case of Mrs. Ceala Urchittel, the poor Russian woman, who told her pitiful story of persecution by the police to the Lexow Committee, last Wednesday, has aroused general public sympathy, and there is a demand from all sides that her dastardly oppressors should be brought to justice.

As "The Evening World" exclusively ascertained yesterday, the men who arrested her were ex-Detectives Edward Shalvey and Ambrose Hussey, of the Delancey street station. Both these ward men have been reduced to the ranks and transferred to other precincts, and are now on vacation.

They are in town, however, and both deny that they had anything to do with the woman previous to the arrest, which was made on a warrant issued by Justice Taintor, on the complaint of one Joseph Takata, who is said to have never lived at the address given in the complaint 124 Goerck street.

Mr. Kessier then testified that he did not enter Mr. Hammerstein's box, but met him in the gallery behind the boxes, where he politely remonstrated with him for his unseemly disturbance, Mr. Hammerstein replied hotly and in inelegant language. A policeman, called by Mr. Hammerstein, would not interfere. Later he saw Di Dio in Mr. Hammerstein's office, giving him a red-hot German tongue-lashing.

Mr. Kessier came to the door and was again villified by Mr. Hammerstein. A few minutes later, at the street door, Mr. Hammerstein struck him, and he struck back, very much to his advantage in the swapping of honors, as he said.

Mr. Hammerstein made off with his lawyer, while Mr. Kessler lingered a few minutes with the Koster & Biat crowd. Both men said they would proceed no further in the matter.

Mr. Hammerstein was asked by an Evening World' reporter why he had hissed DI Dio. He replied it was because her songs were indecent. Because His Wife Would Not Give It to Him He Took His Life.

"This shooting is a mystery to me. It has a strange look," said Policeman Hall, of the Twenty-fifth Precinct, who stood guard this morning over the dead body of Ferdinand Adolph Marsily, in the second-story brick room of the brown-stone front house 116 East Seventy-fourth street.

The story of the tragedy as thus far gleaned does not differ in salient features from many other suicides. As Policeman Edgar V. Campbell was patrolling his post on East Seventyourth street at 5.15 o'clock this morn-

ing, a girl, greatly agitated, rushed up him, saying: "Come quick, officer, the master has shot himself in our house!"

At the door Campbell was met by a handsome woman about thirty years old, who was evidently laboring under "My husband has shot himself!" she

Concerning the causes which prompted Mr. Marsily to end his life nothing could be gleaned in the stricken household. He was a merchant, apparently in prosperous circumstances, and although fifty-eight years old, had no physical aliment of a serious character so far as known.

He had, it is said, sold the house in which the deed was committed only a few days ago. Everything of value, from the garret to the cellar, had been packed up ready for removal. The only exception was a miscellaneous collection of books and pamphlets, which cumbered the parlor floor.
